# Why I Got Vaccinated

"I got vaccinated because I care about others. The devastation and horrors of the past 18 months took any question marks out of the decision to receive the vaccination. It was simply the right thing to do. I could not, in good conscience, enter a patient's room, visit my elderly grandmother and call on my retired, elderly neighbors without first receiving the vaccine."

Hannah Anderson, Clinical Liaison, The Center at Waterfront

"I got vaccinated because I work in a long-term care facility where the residents are immunocompromised. It is important to stop the spread."

Kelsie Henning, Medical Records/LPN, Dooley Center

"I got vaccinated for my residents and my daughter, Maleah."

Shelby Schloetzer, Activity Director/Social Service Designee, Heritage Gardens Health & Rehabilitation Center, LLC

"I got vaccinated because it is the right thing to do to keep Covid numbers down, especially since I work in the medical field. Also, I want to try to prevent others from getting Covid."

Tammy Jones, Certified Nursing Assistant, Dooley Center
