

Do your part for yourself, your family, and your residents! Get Vaccinated!

"I wanted to not only protect myself, but our residents, my co-workers, and my family."

*Kim Moody, Vice President of Operations,
Wesley Commons*

"I got vaccinated because of my passion for working with people. The COVID-19 virus is a deadly disease that spreads rapidly. I wanted to protect my loved ones, family & friends in the community as well as in the nursing home. Last but not least, I am a COVID-19 survivor."

*Tammy Currie, Social Service Director,
McCormick Rehabilitation & Healthcare*

"I reassured each family member that our team at Seneca Health & Rehabilitation Center are working hard to ensure the safety of all of our residents. I then educated each family member on why it is important that their love one be vaccinated. I began each discussion by acknowledging that our elderly residents are the most vulnerable and are at an increased risk of infection and severe illness from the COVID 19 virus."

*Rhonda Harris, MSN, BSN, RN, Staff Development
Coordinator/Infection Prevention,
Seneca Health & Rehabilitation*
