

I GOT A BOOSTER BECAUSE...

...I like to travel

...my mom has asthma

...I can't miss work

...I'm pregnant and protecting my baby

...the first two weren't a big deal

...it's free for everyone

...I have high blood pressure and I'm heavy set

... I don't like needles, but I really hate being in hospitals

... I have a a lot to live for!

...Sometimes I can be mask-free

...It boosts my protection

...It's my civic duty
