

StrongerMemory

A New Innovative Brain Health Program for Residents

Now enrolling facilities for the next 12-week session beginning **August 21st**.

StrongerMemory is an evidence-based intervention that can improve cognitive function for people with mild cognitive impairment. Our goal is to **improve** cognitive function that may have been impacted by the isolation experienced during the COVID-19 pandemic.

Residents who participate in StrongerMemory spend 20-30 minutes a day using the three R's to help improve cognition.
