medications correctly can be very challed information you need to assist with that understand why you take your medicated take them the way they are supposed to prescribed? We want to understand who	edications in today so we could review them with you. Taking enging. We want to do everything we can to give you all the t and keep you safe. Based on today's review, could you help me ions the way you do? Is there something we can do to help you to be taken? Or is there a reason you may not be taking them as at some of the problems are so we can help doctors/hospitals and do better in explaining to participants how to take their medication or safe and healthy.
