RN-BC, LNHA
Quality Improvement Advisor

Objectives

- Understand the current NHSN reporting requirements for long-term care facilities.
- Discuss how to receive assistance should reporting challenges arise.
- Identify best practices to avoid missing reporting deadlines.

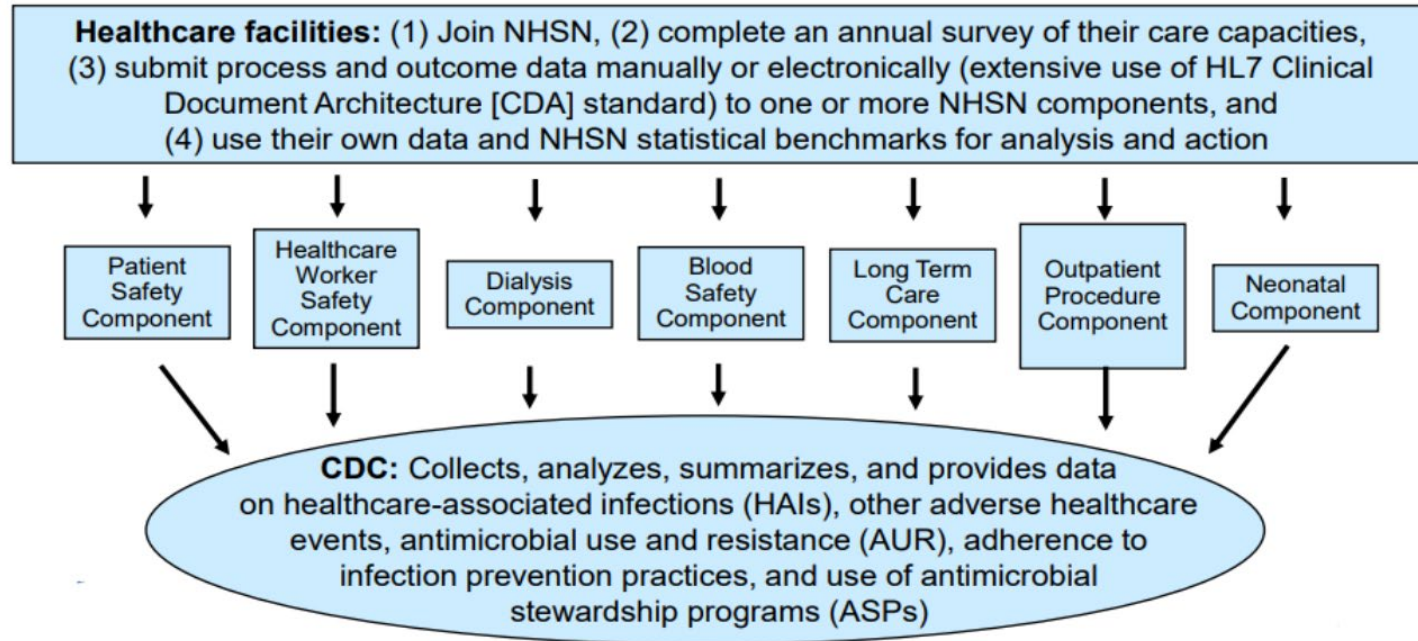

What is the National Healthcare Safety Network (NHSN)?

- A secure, internet-based system for monitoring healthcare-associated adverse events and practices
- Participating healthcare facilities use the NHSN web application to enter, analyze, and share data
- Data entry can be manual by users in the healthcare facility or electronic via file submission or uploads
- NHSN fulfills CMS and state requirements for COVID-19, healthcare-associated infections (HAIs) and antimicrobial-resistant (AR) infections reporting requirements

What is the NHSN?

CDC's National Healthcare Safety Network (NHSN) – A Healthcare Surveillance System

NHSN LTC Components Pre-COVID

- Approximately 3,200 nursing homes reporting

Health-care Associated Infections
- Urinary Tract Infection (UTI)

Laboratory-identified Event
- CDI
- MDRO

Prevention Process Measures
- Hand Hygiene
- Gown & Gloves

The NHSN Long-term Care Facility (LTCF) Component provides long-term care facilities with a customized system to track infections and prevention process measures in a systematic way.

Tracking this information allows facilities to identify problems, improve care, and determine progress toward national healthcare-associated infection goals.

Facilities eligible to report into all modules of this component include nursing homes, skilled nursing, chronic care, and developmental disability facilities. Assisted living facilities can only report into the prevention process measures module.

Long-term acute care hospitals (LTACHs) are not eligible to report into this component.

LONG-TERM CARE FACILITY COMPONENT MODULES

Click on each module to access relevant training, protocols, data collection forms, supporting materials, analysis resources, and FAQs.

C. difficile Infection (CDI) and Multidrug-resistant Organisms (MDRO)

Urinary Tract Infections (UTI)

COVID-19 & Post Pandemic Timeline

- NH Restrictions on Visitation;
- Focused IPC surveys

CMS Reporting Requirements

- Mandatory NHSN reporting-May 2020
 - Suspected & confirmed COVID-19 infections among residents/staff; total deaths & COVID-19 deaths among residents & staff; access to COVID-19 testing; staffing shortages, PPE and hand hygiene supplies in the facility, etc.
 - 2 New F tags
 - F884-COVID-19 reporting to CDC
 - F885-COVID-19 reporting to residents, their Representatives & Families
 - Weekly COVID-19 vaccination data reporting-May 2021
 - Compliance enforcement began on June 14, 2021
 - Noncompliance=a single deficiency at F884 for that reporting week and the imposition of civil money penalty (CMP)
- [QSO-20-29-NH \(cms.gov\)](#)
 - [QSO-21-19-NH \(cms.gov\)](#)

Required NHSN Reporting

Weekly:

COVID-19/Respiratory Pathogens Module, includes:

- Resident Impact and Facility Capacity (RIFC)
- POC Test Result
- COVID-19 vaccination for HCP and Residents

Annually:

HCP Flu Vaccination

NHSN Deadline for Weekly Reporting

Reporting week is Monday through Sunday. Data must be submitted into NHSN once every reporting week. Report consistently each week.

Report once every week before Sunday at 11:59 p.m. (EST).

S	M	T	W	Th	F	S
	1	2	3	4	5	6
7						

COVID-19/Respiratory Pathogens Pathway Data Reporting

Each week, new data should be reported representing the time since the last report date:

1. Resident Impact and Facility Capacity
2. Staff and Personnel Impact

The screenshot displays the NHSN Long Term Care Facility Component Home Page. The left sidebar contains a navigation menu with the following items: Alerts, Dashboard, Reporting Plan, Resident, Staff, Event, Summary Data, COVID-19/Respiratory Pathogens (highlighted), Vaccination Summary, Import/Export, Surveys, Analysis, Users, Facility, Group, and Cheat Sheets. The main content area shows the 'Long Term Care Dashboard' with an 'Action Items' section. Under 'COMPLETE THESE ITEMS', there are four tasks: COVID-19 Vaccination - Residents, COVID-19 Vaccination - HCP, POC Test Result Reporting, and Pathway Data Reporting. A callout box highlights the 'Person-Level COVID-19 Vaccination Form - Residents' task, which has a large blue number '46' and the text 'Missing Summary Data' next to it.

Resident Impact and Facility Capacity

Resident Impact and Facility Capacity

Staff and Personnel Impact

Influenza/RSV (Optional)

Date Created:

If the count is zero, a "0" must entered as the response. A blank response is equivalent to missing data. NON-count questions should be answered one calendar day during the reporting week.

Facility Capacity

ALL BEDS

*CURRENT CENSUS: Total number of beds that are occupied on the reporting calendar day

Resident Impact for COVID-19 (SARS-CoV-2)

* **POSITIVE TESTS:** Enter the Number of residents with a newly positive SARS-CoV-2 viral test result (for example, a positive SARS-CoV-2 antigen test and/or SARS-CoV-2 NAAT (PCR).

Note: Do not include residents who have a positive SARS-CoV-2 antigen test, but a negative SARS-CoV-2 NAAT (PCR).

Only include residents newly positive since the most recent date data were collected for NHSN reporting.

Vaccination Status of Residents with a Newly Confirmed SARS-CoV-2 Viral Test Result

**Up to Date Vaccination Status

Up to Date: Include residents with a newly positive SARS-CoV-2 viral test result who are up to date with COVID-19 vaccines 14 days or more before the specimen collection date.

Note: Please review the current NHSN surveillance definition of [up to date](#).

Not Up to Date: Based on the counts entered for POSITIVE TESTS and UP TO DATE, the count for residents who are NOT considered up to date based on the NHSN Surveillance definition has been calculated here.

This count is not editable, to edit please update the count(s) entered for UP TO DATE and/or POSITIVE TESTS.

Hospitalizations

This is not a subset of the "Positive Tests" count reported above. Include only the number of new hospitalizations with a positive COVID-19 test since the most recent date data were reported to NHSN.

* **Hospitalizations with a positive COVID-19 Test:** Number of residents who have been hospitalized with a positive COVID-19 test.

Note: Only include residents who have been hospitalized during this reporting period and had a positive COVID-19 test in the 10 days prior to the hospitalization, date of specimen collection is calendar day 1.

Save

Cancel

Staff and Personnel Impact

Date for which counts are reported: 08/04/2024

Facility CCN: 999991

Facility Type: LTC-SKILLNURS

Resident Impact and Facility Capacity

Staff and Personnel Impact

Influenza/RSV (Optional)

Date Created:

Counts should be reported on the correct calendar day and include only new counts for the calendar day (specifically, since counts were last collected). If the count is zero, a "0" must be entered as the response. A blank response is equivalent to missing data. NON-count questions should be answered one calendar day during the reporting week.

Staff and Personnel Impact

*** POSITIVE TESTS:** Enter the number of staff and facility personnel with a newly positive SARS-CoV-2 viral test result (for example, a positive SARS-CoV-2 antigen test and/or SARS-CoV-2 NAAT (PCR)).

Note: Exclude staff and facility personnel who have a positive SARS-CoV-2 antigen test, but a negative SARS-CoV-2 NAAT (PCR).

Include only staff and facility personnel newly positive since the most recent date data were collected for NHSN reporting

Influenza/RSV (Optional)

Resident Impact and Facility Capacity

Staff and Personnel Impact

Influenza/RSV (Optional)

Date Created: 08/16/2024 3:14PM

INFLUENZA

If the count is zero, a "0" must be entered as the response. A blank response is equivalent to missing data.

Resident Impact for Influenza

* **POSITIVE TESTS:** Enter the Number of residents with a newly positive Influenza test result.

Only include residents newly positive since the most recent date data were collected for NHSN reporting.

Vaccination Status of Residents with a Newly Confirmed Influenza Test Result

**Up to Date Vaccination Status

Up to Date: Include residents with a newly positive Influenza viral test result who are up to date with Influenza (flu) vaccines for the current flu season (2023-2024) 14 days or more before the specimen collection date.

Not Up to Date: Based on the counts entered for POSITIVE TESTS and UP TO DATE, the count for residents who are NOT considered up to date for the current flu season has been calculated here.

This count is not editable, to edit please update the count(s) entered for UP TO DATE and/or POSITIVE TESTS.

Hospitalizations

This is not a subset of the Influenza "Positive Tests" count reported above. Include only the number of new hospitalizations in residents with a positive influenza test since the most recent date data were reported to NHSN.

* **Hospitalizations with a positive Influenza Test:** Number of residents who have been hospitalized with a positive Influenza test.

Note: Only include residents who have been hospitalized during this reporting period and had a positive Influenza test in the 10 days prior to the hospitalization, date of specimen collection is calendar day 1.

Hospitalizations with a positive Influenza Test and Up to Date: Based on the number reported for "Hospitalizations with a positive Influenza Test" indicate the number of residents who were hospitalized with positive Influenza test and also up to date with Influenza vaccine at the time of the positive Influenza test.

COVID-19 Vaccination Data Reporting

Cumulative data should be reported every week for all residents and staff that were in your facility for the week of data collection.

1. Residents
2. HCP

The screenshot shows the NHSN National Healthcare Safety Network (NHSN) interface for reporting COVID-19 vaccination data. The main heading is "Vaccination Summary Data". Below this, there is a instruction: "Click a cell to begin entering data for the week which counts are reported. Reporting of medical events or health problems that occur after vaccination (possible side effects) is encouraged, even". A date range selector shows "29 July 2024 - 08 September 2024" with a legend for "Record Complete" (dark green) and "Record Incomplete" (light yellow). A "Weekly Vaccination Calendar" table is displayed with columns for dates and rows for different categories. A dropdown menu is open over the "COVID-19/Respiratory Pathogens" category, listing options: "COVID-19 Vaccination - Residents", "COVID-19 Vaccination - HCP", "POC Test Result Reporting", "Pathway Data Reporting", "Person-Level COVID-19 Vaccination Form - HCP", "Person-Level COVID-19 Vaccination Form - Residents", "08/12/2024 (Monday) - 08/18/2024 (Sunday)", "COVID-19: HCP", "COVID-19: Residents", and "FLU/RSV: Residents".

Category	08/12/2024 (Monday) - 08/18/2024 (Sunday)
COVID-19 Vaccination - Residents	Record Incomplete
COVID-19 Vaccination - HCP	Record Incomplete
POC Test Result Reporting	Record Incomplete

Current Definition of Being Up to Date with COVID-19 Vaccination

- Individuals are considered up to date with the COVID-19 vaccines during the surveillance period of July 1, 2024-September 29, 2024, for the purpose of NHSN surveillance if they meet the following criteria:

Individuals aged **65 years and older** are up to date when they have:

Received 2 doses of the updated 2023-2024 COVID-19 vaccine, **or**

Received 1 dose of the updated 2023-2024 COVID-19 vaccine within the past 4 months.

Individuals **younger than 65 years of age** are up to date when they have:

Received 1 dose of the updated 2023-2024 COVID-19 vaccine.

[UpTo Date Guidance Quarter 3 of 2024 \(cdc.gov\)](https://www.cdc.gov)

Recommended NHSN Vaccination Reporting Tool

- Optional
- Level 3 access required
- NHSN recommended mode of data reporting and tracking
- NHSN will automatically calculate and autofill the data required to submit weekly COVID-19 vaccination data, including determining who is up to date

[LTCF Person-Level Vaccination Form How to Guide June 2024_508 \(cdc.gov\)](https://www.cdc.gov/ltcf/person-level-vaccination-form-how-to-guide-june-2024-508)

The screenshot displays the NHSN Long Term Care Facility dashboard. On the left is a vertical navigation menu with the following items: NHSN Home, Alerts, Dashboard, Reporting Plan, Resident, Event, Summary Data, COVID-19, Vaccination Summary, Import/Export, Surveys, Analysis, and Logout. The 'COVID-19' item is selected, and a dropdown menu is open, listing the following options: Dashboard, Pathway Data Reporting, POC Test Result Reporting, COVID-19 Vaccination - HCP, COVID-19 Vaccination - Residents, Person-Level COVID-19 Vaccination Form - HCP, and Person-Level COVID-19 Vaccination Form - Residents. The last two options are highlighted with a red rectangular border. The main content area of the dashboard shows 'NHSN Long Term Care Facility' with a globe icon, a 'Long Term Care Dashboard' link, and an 'Action Items' section titled 'COMPLETE THESE ITEMS'.

Healthcare Personnel Safety (HPS) Component

Key Points: Reporting Requirements

- The Influenza Vaccination Coverage among HCP measure was finalized in the FY 2023 SNF PPS Final Rule – Published in the Federal Register on August 3, 2022.
- CMS-certified skilled nursing facilities (SNFs) are required to report **annual** HCP influenza vaccination summary data through the NHSN **Healthcare Personnel Safety (HPS) Component** for the 2024-2025 influenza season
- For questions related to SNF Quality Reporting Program (QRP) requirements, please contact CMS at:
SNFQualityQuestions@cms.hhs.gov

[Long-Term Care Facility Office Hours - February 2024 \(cdc.gov\)](#)

[HCP Flu Vaccination | HPS | NHSN | CDC](#)

[Operational Guidance for Skilled Nursing Facilities to Report Annual Influenza Vaccination Data to CDC's NHSN](#)

HPS Component (continued)

- Facilities must activate the Healthcare Personnel Safety (HPS) Component in NHSN to report annual influenza vaccination summary data.
- Only the **NHSN Facility Administrator (FA)** can activate a new component.
 - **If the NHSN FA leaves the facility but does not transfer the role of FA to another individual prior to leaving, please complete the NHSN Facility Administrator Change Request Form online:**
[Change NHSN Facility Administrator | NHSN | CDC](#)
- When adding the HPS component, **DO NOT de-activate** any other NHSN Components, such as the LTC Facility Component.

Note on Reporting Requirement

HCP categories	Employees (staff on facility payroll) *	Licensed independent practitioners: Physicians, advanced practice nurses, & physician assistants *	Adult students/ trainees & volunteers *	Other Contract Personnel
1. Number of HCP who worked at this healthcare facility for at least 1 day between October 1 and March 31	25	25	25	15
2. Number of HCP who received an influenza vaccine at this healthcare facility since influenza vaccine became available this season	5	5	5	3
3. Number of HCP who provided a written report or documentation of influenza vaccination outside this healthcare facility since influenza vaccine became available this season	5	5	5	3
4. Number of HCP who have a medical contraindication to the influenza vaccine	5	5	5	3
5. Number of HCP who declined to receive the influenza vaccine	5	5	5	3
6. Number of HCP with unknown vaccination status (or criteria not met for questions 2-5 above)	5	5	5	3

Note: The sum of questions 2-6 MUST equal the number reported in question 1 for each HCP category.

Annual HCP Influenza Vaccination

- The reporting period for the **2024-2025** influenza season is from **October 1, 2024, through March 31, 2025.**
- Facilities are required to submit one report covering the entire influenza season.
- Level 3 SAMS access is needed to enter data into the HPS Component.
- The deadline to report the annual HCP influenza vaccination summary data through the NHSN HPS Component is **May 15, 2025.**

Review Facility Administrator in NHSN

Log into NHSN and make sure your facility has an active Facility Administrator.

The Facility Administrator:

- One person designated to this role.
- Only the Facility Administrator can:
 - Enroll a facility in one or more components in NHSN.
 - Reassign the role of Facility Administrator.
 - Manage/negotiate locations that are used across components.

[Reassigning the Facility Administrator in a Facility \(youtube.com\)](#)
[How to Deactivate and Activate a User in a Facility \(youtube.com\)](#)

Reassigning the NHSN FA Role

If the NHSN Facility Administrator (FA) role needs to be reassigned, the current FA should complete steps in NHSN to ensure the role is properly reassigned.

If your **NHSN Facility Administrator has left the facility**, NHSN can add an individual as the new NHSN Facility Administrator.

- Complete the NHSN Facility Administrator Change Request Form.
- Allow up to 5 business days for the change request form to be verified and completed.
- Do not re-enroll the facility in NHSN.

Optional NHSN Reporting

- Influenza & RSV Vaccination and Cases (Include in COVID-19/Respiratory Pathogens Module)
- MDRO & CDI
- UTI

Where to Access NHSN Training and Guidance Documents

The CDC National Healthcare Safety Network (NHSN) website is the official source for information, training, resources and data reporting forms.

Print

Our mission is to offer learning opportunities in a variety of formats that enhance the knowledge and skills of NHSN facility- and group-level participants and their partners in order that they may effectively use the data obtained from the surveillance system to improve patient and healthcare personnel safety.

Objectives

- Convey NHSN data collection methods, submission requirements, and analysis options to participants so that they may acquire, submit, and disseminate high quality, actionable data.
- Prepare participants to use the NHSN reporting application accurately and efficiently.
- Enhance participants' and their partners' understanding of data quality and the value of adverse event monitoring.
- Encourage collaboration among participants and partners to improve the patient and healthcare personnel safety across the spectrum of care.

NHSN Educational Roadmap
 A guided tour of the training materials and information needed to provide a solid foundation of NHSN.

Upcoming Webinars

Topic: LTCF Respiratory Pathogens Module: Updates to Resident Data Collection Form and Up to Date Definition for Weekly COVID-19 Vaccination Data Reporting of Healthcare Personnel and Residents (Initial)

When: September 24, 2024 01:00 PM Eastern Time (US and Canada)

Register in advance for this webinar: https://cdc.zoomgov.com/webinar/register/WN_iGDEZDj5S1ymG4J9cflK_A 

After registering, you will receive a confirmation email containing information about joining the webinar.

[LTCF | COVID-19/Respiratory Pathogens Vaccination | NHSN | CDC](#)

Best Practice to Avoid Reporting Issues

- Know who is your NHSN Facility Administrator.
- Have at least one back up reporter for NHSN with Level 3 SAMS access.
- Have a designated day for weekly reporting.
- If a NHSN reporter is leaving, have a succession plan in place before their last day.
- When prompted to change your password:
 - Consider changing prior to required date.
 - Once changed, exit the website and re-enter through a new browser link, not one saved on your computer.
- Know where to get help.

Have a Question or Need Help?

NHSN

- Use **NHSN-ServiceNow** to submit questions to the NHSN Help Desk.
 - [About NHSN Help Desk | NHSN | CDC](#)
 - ServiceNow should be used instead of emailing NHSN. Users will be authenticated using CDC's Secure Access Management Services (SAMS), the same way you access NHSN.
 - If you do not have a SAMS login, or are unable to access ServiceNow, you can still email the NHSN Help Desk at nhsn@cdc.gov.

HQIN NHSN NH Reporting Group

- Nursing homes are invited to join the reporting group. Doing so is optional.
- Joining confers **view only** rights to submitted NHSN data.
 - HQIN cannot enter, edit or delete your data.
- Why join?
 - Improves HQINs ability to provide reporting help when needed.

[How To Join the HQIN Nursing Home Reporting NHSN Group | HQIN](#)

The Weekly Dose

The *Weekly Dose* is a brief bulletin that provides you with the latest guidance and information to support vaccine uptake. As your Medicare Quality Innovation Network – Quality Improvement Organization (QIN-QIO), our team of nursing home experts at the [Health Quality Innovation Network \(HQIN\)](#) is dedicated to helping you increase your vaccination rates. Please [contact us](#) with questions.

FDA Approves Updated COVID-19 Vaccines for 2024-2025

The FDA recently approved the 2024-25 Moderna (Spikevax) and Pfizer (Comirnaty) vaccines, and supplies are already available in some communities. Check with the pharmacy for exact dates when vaccines will be available.

Everyone ages 6 months and older should get the [2024-25 COVID-19 vaccine](#). It is especially important for those who are 65 and older, living in a long term care facility, are at high risk for severe COVID-19 or have never received a COVID-19 vaccine. This includes people who have had COVID-19.

Additionally, COVID-19 vaccines are recommended for women who are nursing, pregnant or trying/considering getting pregnant.

Vaccinate residents as soon as possible since these vaccines protect against currently circulating variants and decrease the risk of long COVID. The CDC recommends giving the COVID-19 vaccine with other needed vaccinations, such as pneumonia and influenza. However, if coadministration will slow the process, don't wait to administer the COVID vaccination.

Vaccination Clinic Support

Need help organizing a COVID-19 vaccine clinic?
